Helicopter Cast Master | Participant Questionnaire

Helicopter Cast Master roles and responsibilities requires good physical and mental health. There are a few medical conditions which can be hazardous while functioning as a Cast Master (CM). Those who have, or are predisposed to, any of these conditions, should be evaluated by a physician. This Medical Participant Questionnaire provides a basis to determine if you should seek out that evaluation. If you have any concerns about your physical fitness not represented on this form, consult with your physician before enrolling in the Caster Master Course of Instruction. If you are feeling ill, avoid all roles as a CM. If you think you may have a contagious disease, protect yourself and others by not participating in any training and/or activities. This form is principally designed as an initial medical screen for new CM's, but is also appropriate for CM's looking to continue their education in a diving profession. For your safety, and that of others whose safety you will be directly in charge of, answer all questions honestly.
